

Resolution

We, The Constitution Party of Yellowstone County, Montana, do rebuke Senators Max Baucus and Conrad Burns for voting for the Patriot Act Renewal, against the wishes of the State of Montana legislature who passed SJ-19 overwhelmingly, asking that our Senators and Representative of Montana allow this act to sunset.

WHEREAS we, The Constitution Party of Yellowstone County, Montana rebuke Representative Rehberg, whose office questioned, "Why should he listen to the State Legislature about his vote to extend the Patriot Act?" Insinuating that since he represents the people, he shouldn't have to listen to the State legislature. Even now, his office will not answer which grassroots organizations had asked him to vote to extend this act. He has shown, just as our Senators have shown, that they do not represent a majority of Montanans' wishes by this vote, along with their votes effectively giving us a National ID card and along with a willingness to violate their oath of office, by not defending the U.S. Constitution. Be it also recognized that the Real ID Act of 2005, passed in the U.S. Senate, attached to an appropriations bill and had no debate held on it, at all.

WHEREAS, due to this neglect of Montanans by our elected senators and representative, we need to ensure that the voters of Montana are aware of these acts and ask them to elect people who are willing to stand up for them, and not sell out the U.S. Constitution under the guise of immigration reform or for any other reason.

WHEREAS, be advised not one of these elected officials will fully answer any of these questions:

1. The 9/11 commission recommended two things; one was to reform our intelligence community and two was to secure our borders. Show us how the Real ID Act of 2005 achieves either of these objectives?
2. Since Active Duty and Reservist Military ID's have tracking chips in them, will you guarantee that civilian ID's will never have a device in them that could be used for tracking purposes?

3. Explain how tracking legal and law-abiding citizens will keep out illegal immigrants?

4. Show us where in the Constitution has the federal government been delegated the power or authority to require by law or regulation a federally approved ID or identity papers to hire a person or to require special licenses or dispensation to exercise our inalienable rights?

5. Since under the Patriot Act our government is attempting to limit our inalienable rights, what is in place to prevent Washington DC from becoming a totalitarian government?

6. If our federal government feel they need the tools in these acts, why don't they amend the U.S. Constitution giving them the authority they feel they need thereby removing the illusions they are attempting to preserve the Constitution and actually uphold and protect our Constitution, the supreme law of the land, rather than violating it?

7. How and why does each of our elected federal representatives feel they have voted for these two laws and still upheld their oath of office?

BE IT RESOLVED that we, as The Constitution Party of Yellowstone County, Montana request that Montanans ask these questions in a public forum and hold our senators and representative responsible for their actions.

BE IT RESOLVED by we, The Constitution Party of Yellowstone County, Montana, to ask our State Legislature and Governor to rebuke Representative Rehberg, along with Senators Baucus and Burns. Furthermore, we ask our state officials, in Helena to request a Federal Grand Jury investigation, not limited to, but including the following possible charges. Violation of oath of office, breach of promise, breach of oral contract, conspiracy, violations of RICO, subversion of the U.S. Constitution and possibly violation of Title 18, Part I, chapter 13, Section 242 of the U.S. code entitled Deprivation of Rights under Color of Law.
